EDUCATION

B.E. Electronics & Telecommunication

Expected May 2027

International Institute of Information Technology (I²IT), Pune — SGPA: 9.32

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML5, CSS3

Backend & APIs: Node.js, Express.js, REST API design, Twilio API integration

Databases & Cloud: MySQL, MongoDB, AWS (S3, IAM)

Tools & Platforms: Git, GitHub, VS Code, IntelliJ IDEA, Postman, Figma

Concepts: OOP, data structures fundamentals, system design fundamentals, networking & cybersecurity basics (Cisco certified)

EXPERIENCE

SDE Intern — Claidroid, Mumbai (Remote)

Mar 2026 – Apr 2026

- Independently built a secure cloud storage dashboard as a company-assigned skill-building project, integrating AWS S3, Node.js, and Express.js into a REST API supporting file upload, retrieval, and deletion
- Used AWS SDK v3 to connect backend services to S3, implementing asynchronous request handling and structured error responses
- Tested REST API endpoints in Postman across upload, retrieval, and deletion flows

R&D Intern — PPCRC

Jul 2025 – Aug 2025

- Sourced and curated video and image datasets from Pixabay, then evaluated Qwen AI's outputs against structured prompt sets, documenting model errors and shortcomings for the research team

GSSoC Contributor — GirlScript Summer of Code

2025

- Merged 3 pull requests across open-source projects: fixed a bug in app.py, built a dark/light theme toggle for DSARecommender, and authored README documentation for InfantCareCompass
- Served as project mentor for ZBOT, supporting contributor onboarding

Campus Ambassador — Google Gemini

Jul 2025 – Dec 2025

- Helped organize 2 community events and a workshop promoting Google AI developer tools
- Spread awareness of Google AI tools and programs through social media outreach

PROJECTS

ZBOT — Voice-Activated AI Assistant / *Python, OpenAI/Transformers, PyQt5, Speech Recognition*

- Built a voice-activated desktop assistant that opens apps and websites, tells jokes, and executes voice commands via a multi-threaded STT/TTS/intent-routing architecture
- Implemented persistent memory enabling recall of previously mentioned people and context across sessions; currently extending it with contact-calling functionality

EnvVault — Full-Stack Secrets Management Platform / *React, Node.js, Express.js, MongoDB Atlas*

- Built a full-stack platform centralizing environment variables across projects, replacing scattered per-project .env files, with a React dashboard and Express/MongoDB backend
- Implemented .env import/export and secret hide/reveal functionality, tested across 2 sample projects with 13 variables; deployment in progress

HACKATHONS & CERTIFICATIONS

Smart India Hackathon — MHRD / Government of India (2024 – 2025)

- Floatchat (2025) — Contributed to an AI-powered chatbot interpreting structured oceanic datasets to help process large-scale environmental data for user queries
- VerdictVision (2024) — Developed a structured legal case database with outcome-probability logic for commercial dispute resolution; shortlisted at college level

WWT All India Women's Hackathon — Certification (2025)

- Built an AI-driven analytics system supporting financial literacy for rural women, structuring financial datasets into simplified, actionable insights

IBM SkillBuild Certification — AI Fundamentals | IBM | 2026

AWS Academy Cloud Foundations | AICTE × Amazon Web Services | 2026

Networking & Cybersecurity Fundamentals | Cisco Virtual Internship | 2025

LEADERSHIP & COMMITTEES

- IEEE Co-Chair — I²IT Pune (2025 – Present)
- Lady Representative — I²IT ACM Committee (2025 – Present)
